CATÁLOGO DE OBRAS

statement

La obra de Bruno Rodríguez Maraude propone una relectura del objeto cotidiano desde la geometría y la abstracción. A partir de elementos en desuso o upcycling, el artista construye composiciones donde la funcionalidad original se disuelve para dar lugar a un nuevo orden visual, dinámico y expresivo. En sus piezas, el color, la forma y la proporción se articulan con precisión arquitectónica, generando un diálogo entre estructura y espontaneidad, entre cálculo y gesto.

Su práctica explora la abstracción geométrica y los volúmenes en la bidimensión, ampliando los límites entre la pintura, el diseño y la escultura. Arquitecto de formación y proveniente de una familia de diseñadores, Rodríguez Maraude incorpora en su lenguaje influencias de la Bauhaus, el arte pop y el minimalismo, que reinterpreta desde una sensibilidad contemporánea.

Su proceso creativo se desarrolla con el rigor de un proyecto arquitectónico: parte de un croquis inicial que evoluciona mediante herramientas digitales —en dos dimensiones cuando se trata de obras pictóricas y en tres cuando aborda piezas híbridas o escultóricas—. A través de la experimentación formal y cromática, el artista alcanza una síntesis donde la precisión técnica se funde con la intuición estética, construyendo un universo propio donde el objeto se transforma en signo y la materia en idea.

Laura Garimberti, Curadora

En la obra del artista y arquitecto Bruno Rodriguez Maraude, quien dijo que orden de los factores no altera el producto se equivocó, si cámbianos algo de la obra de Bruno cambia todo....

El dualismo entre los colores plenos y la forma de objetos de uso cotidiano conforman una unidad de orden arquitectónico que te invitan a entrar en una nueva dimensión espiritual de manera distinta y armónica donde confluye lo contemporáneo del diseño y lo ancestral de las formas. Unificado por el juego racional y emocional del artista en la creación de la misma.

Erika Dekerki, Escultora
